

Solutions for Government Agencies

Put your agency on the fast track to better service

Sirius offers the latest information technology products and services to federal and state and local government agencies nationwide. Products available under our current government contracts include the full line of IBM® System servers and storage solutions. We also offer IBM software including Tivoli®, WebSphere®, DB2®, Rational®, Lotus®, and IBM operating systems (including all mainframe operating systems, as well as AIX® and IBM i). As Sirius' market position in the public sector matures, we continue to expand our professional services capabilities to assist with the evaluation, installation, implementation and ongoing maintenance of the products we offer specifically for government agencies.

FEDERAL GOVERNMENT CONTRACT INFORMATION

Sirius has two Government Wide Acquisition Contracts (GWACs) that are sponsored by the General Services Administration (GSA) and the National Institute of Health (NIH). All agencies of the federal government as well as qualifying state and local governments can acquire products and services offered under the GSA MAS Schedule 70 contract. Alternatively, federal government agencies can order products offered under the NIH Electronic Commodity Store III (ECSIII) contract. For questions regarding Federal Government contracts, please contact Phyllis Byrd at 210-369-0617 or phyllis.byrd@siriuscom.com
