Sirius Computer Solutions Achieves IBM Systems and Technology Group (STG) SAP Accreditation

San Antonio, TX – October 29, 2009 – [Sirius Computer Solutions](#), a national technology solutions provider and IBM Premier Business Partner, has earned the IBM STG Accreditation for SAP by meeting the standards established by IBM. The new accreditation allows Sirius to work with SAP and SAP resellers to provide clients with a complete IBM infrastructure solution for SAP applications.

"IBM has been working with SAP for over 35 years to deliver thousands of successful SAP implementations built on IBM Servers and IBM System Storage," said Steven Perry, Director of IBM ISV Solution Marketing. "For almost 30 years, Sirius has been a leading provider of IBM servers and storage. Adding this accreditation proves that Sirius sales and technical teams also have knowledge to architect and design robust infrastructure solutions running on IBM technologies to support mission-critical SAP business applications."

This accreditation covers the full suite of IBM server and IBM System storage offerings for SAP and gives Sirius the information we need to properly size and recommend [IBM products for SAP installations](#). Clients can be confident that Sirius has the necessary education, experience and capabilities to provide IBM products and expert support for SAP application environments.

Sirius has a national team of Account Executives certified in [IBM STG solutions](#) including all server and storage product lines. In addition, Sirius Software Specialists bring knowledge about IBM software capabilities that can be integrated with SAP applications.

According to Chris Mierzwa, Sirius VP, Product Management and Alliances, "Companies looking to streamline the IT infrastructure to support the dynamic needs of the business applications while cutting costs associated with IT operations, utilization, energy usage are looking for expert assistance. SAP users can now turn to Sirius, in partnership with IBM and SAP, to help optimize the IT infrastructure supporting SAP applications."

About Sirius: Sirius is a national IT solution provider and IBM Premier Business Partner that is dedicated to helping clients implement advanced infrastructure solutions that provide a competitive advantage and a positive return on their investment.
