

**For Immediate Release:**

## **Sirius Computer Solutions opens regional sales office in Kansas City and a Dallas SAN Lab Customer Center**

*San Antonio, Texas...June 1, 2001*, Sirius Computer Solutions has responded to the changing landscapes in the Solution Provider environment by expanding the number of sales locations and regional coverage to include a new sales office in Kansas City, Missouri and its SAN Lab in Dallas, Texas. "While other companies are content to operate in a reactive mode, Sirius has chosen to show customers the opportunities and value that our technology solutions can truly deliver," said Mark Hernandez, Regional Sales Manager for Kansas, Missouri, Colorado and Oklahoma.

Sirius has also recently made significant investments in their new SAN Lab in their Dallas, Texas facilities. The SAN Lab has a multitude of demonstration services including High Availability/Disaster Recovery, Proof of Concept and Quality Assurance. The SAN Lab equipment spans storage devices, systems and software comprised of IBM, McDATA, Tivoli, Sun and HP products to showcase customer demos. Sirius' leading edge solutions have earned them the reputation of one of the largest business and technology solution providers in North America. These advanced capabilities illustrate Sirius' drive and intent to stay well ahead of their competition and provide the most advanced business solutions for their customers. But for all the changes and improvements, Sirius Computer Solutions has been there.

### *About Sirius*

Sirius began in 1980 with headquarters in San Antonio, Texas and has over 30 regional and satellite offices nationwide. Sirius is a Premier member of IBM PartnerWorld and the largest eServer Reseller in the world. Sirius has received the IBM Leadership award for the last three years and was recently awarded the IBM Lifetime Achievement Award. This award is the highest honor ever given to an IBM Business Partner.

Sirius provides value-added solutions for customers in the enterprise systems marketplace by utilizing leading edge technology, services and application offerings. They offer a wide range of solutions in the areas of e-business, Customer Relationship Management, Business Intelligence, Managed Availability, Enterprise Management, Server Solutions and Enterprise Resource Planning.
