

Our Customers

Businesses built on NetApp go further, faster

NetApp helps enterprises of all sizes achieve a competitive edge by enabling them to innovate faster and more affordably than their competitors. Globally, service providers support more than a billion customers with services built on NetApp. Media companies push the limits of imagination and performance with the help of NetApp. Internet companies keep pace with data growth and demand for new services by using our flexible storage architecture. Gaming companies use NetApp storage to gain first-mover advantage. Banks and financial giants trust NetApp to store, maintain, protect, and serve their business-critical data.

Our Culture

Dedicated to the people we serve

Creating a model company is at the heart of everything we do. It means delivering value to each community we serve: customers, shareholders, employees, partners, and neighbors.

We are committed to living our core values:

Trust and Integrity
Leadership
Simplicity
Adaptability
Teamwork
Go Beyond
Get Things Done

The strength of our culture means that we attract the industry's best to work for our customers' success. As a result, we consistently earn top spots on FORTUNE's list of "100 Best Companies to Work For" in the United States and around the world.

Our Partnerships

One team for success

We form lasting partnerships with the industry's best application, infrastructure, consulting, and reseller partners with one goal in mind: the success of our customers. Global enterprises, local businesses, and government installations look to NetApp and our ecosystem of partners to help maximize the business value they get from IT investments.

Professional Services teams from NetApp and our partners offer assessment, design, and implementation services that help customers optimize their IT environments. These experts help customers deploy new capabilities with confidence. Our highly responsive global support organization supplies systems, processes, and people wherever they are needed to provide continuous operation in complex and critical environments.
